

Adult Improv Class

Summer 2024

Tuesdays 7-9pm

Grant Collins, Instructor

Course Description

Improv has been proven to help you be a better communicator, public speaker, and all around cooler person. On top of that, it's so fun it's addictive! During this six week class, we will use exercises and play games to explore and learn all the basics of improv. We'll start with simple "yes anding" and work our way up to improvising full scenes. The best thing about improv is that anyone can do it, even without any previous stage or acting experience. Improv might be what you're looking for in life, unless you don't like making new friends and having a lot of fun.
